

Proposed Plan: Oklahoma Refining Company Superfund Site

Operable Unit 2 • Cyril, Oklahoma

Oklahoma Department of Environmental Quality Announces Proposed Plan

This Proposed Plan, part of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) process (Figure 1), identifies the preferred alternatives for remediating soil, sediment, and Light Non-Aqueous Phase Liquid at the Oklahoma Refining Company Superfund Site (Site), Cyril, Oklahoma; and provides the rationale for this preference. This proposed plan is for a Record of Decision to remediate soil, sediment, and Light Non-aqueous Phase Liquid at the Oklahoma Refining Company Superfund Site. In addition, this Plan includes summaries of other cleanup alternatives evaluated for use at this Site. This document is issued by the Oklahoma Department of Environmental Quality (DEQ), the lead agency for Site activities, in consultation with the United States Environmental Protection Agency, Region VI (USEPA). The remedy will be selected for the Site after reviewing and considering all information submitted during the 30-day public comment period on the Proposed Plan (see right). Based on new information or public comments, DEQ, in conjunction with the USEPA, may modify the preferred alternatives or select other response actions. Therefore, the public is encouraged to review and comment on the alternatives presented in this Proposed Plan.

The DEQ is issuing this Proposed Plan as part of its public participation responsibilities under Section

Dates to Remember:

Public Comment Period: January 15, 2013 - February 22, 2013. The DEQ and EPA will accept written comments on the Proposed Plan during the public comment period.

Public Meeting: February 21, 2013

The DEQ will hold a public meeting to explain the Proposed Plan and all of the alternatives presented in the Feasibility Study. Oral and written comments will also be accepted at the meeting. The meeting will be held at the Cyril City Hall, 202 W. Main, Cyril, Oklahoma at 6:00 pm.
