In June of 2010, the Oklahoma State Board of Education adopted the Common Core State Standards developed by the National Governor’s Association’s Center for Best Practices (NGA Center) and the Council for Chief State School Officers (CCSSO).¹¹ The standards, developed collaboratively with teachers, school administrators, curriculum content experts, and others, aims to provide clear, consistent student benchmarks, a common understanding of what is expected of students, and a framework to prepare students for college and the workforce. Currently, the Oklahoma Academic Standards include both the Priority Academic Student Skills (PASS) and the Common Core State Standards. Full implementation of the Common Core State Standards and phasing out of PASS for English Language Arts (ELA) and math is scheduled for the 2014-15 school year. Oklahoma is one of 45 states and four territories to adopt the Common Core State Standards.

At the time of the consulting team’s on-site work in MPS, Oklahoma was one of 22 states and one territory to create K-12 assessments aligned to Common Core State Standards through the
